thanks for the thoughts guys.

heh yeh i got 3 computers in my room, 3 in the living room and my laptop, keeping it all together kinda gets messy with all the wires arround:evil:

may i ask why you have so many?

you work from home or somethink?

in my room there is my main pc, my media center pc, and one thats just there and serves no real purpouse lol
in the living room there is my file/web server, a pc for my stepdad to use, and my mums pc which will be used as a print and scanner server when we move to the new house.

Your Desk seems far to small Dual, i mean can you eat your dinner from there? Plus thats the chair my dad has, i have the next one up... Bigger & Comfier :)

=====

Re:Post your Desktop

Posted by DualFever - 2007/09/18 00:54

Well cant complain about the chair it only cost me £30 on offer lol :laugh: desk is small but i dont have room for something bigger dinner on lap for now :(lol

actually, it's logitech's first wireless gaming mouse G7
can't complain about it.

wireless aint that bad, although im looking into buying the razer lanchis lately
got the razer Xact mousemat by now :>
