
Crysis Single Player Help!!!

Posted by Vairo - 2007/11/15 16:30

I have done some reading and seems to me a lot of people in other forums are asking for many various things about different Crysis levels etc, so the ones who are stuck between levels and need help do not hesitate to ask it in here, I am sure few of the members will help you as much they can ! As far as i know there are few bugs even in Single player, so just keep em coming ! ;)

Also if you got some cool tricks, tweaks to share with community, we most definitely like to see it ;) vai

I'm stuck. Don't know what the level is called. Im in a village, with a watertower, killed everyone and destroyed the radar.. so im supposed to find more hostages, but i don't find them in the village, should i just go on? only a yellow dot on my radar, witch markes the radarthingy I destroyed. So nothing happened after i destroyed it.

Please help?

Re:Crysis Single Player Help!!!

Hi!

Yes, if u see a Yellow objective near you, and another green one further away , then just go to next point and you should be fine!

But if you got only 1 yellow objective and can't find any hostage, then just replay Level, restart level from beginning, that should do!

I think u have to wait something like 15mins coz there are some electrical connectors that will continue to charge up and connect to each other, after that they will open that closed door; basically aliens will be pouring in and u have to fight them off, but i kept using cloak and hiding until the door opened:P I hope thats the door ur stuck with.

It is a bit smaller than you might think so pay attention!

HI everyone

Please help ... I dont know what is mission called, so Im on a ship, I've already destroyed something like spyder, and then some big Enemy Ship came out of water ... and I cant destroy it ... someone on radio says that I must use TOL (or smt like that) gun, and when I use it, "No Target Locked" is written on the screen ... :S

If you dont have that gun you have to go back or restart level, the gun is located in same room where they checked your nano suit or something, it is in that room, but you can take it only on your way back after you done all those small missions, I think the best for you would be restart last level!

Okay I'm on the american cruiser and i have to get back to the flight deck after doin the mini misions and picking up the TAC gun.

But i cannot find a way up!

I can get up until the THE BRIDGE and than i am next to the dot on the radar, but i cannot find a way out!

do i have to back somewhere?

There's also a lot of doors block with materials wich a cant beat aside with STRENGT mode, or should i? maybe a bug you guys know of?

O, and this is after the commander died because of alien attack (when you bash in door and he is the floor telling you to save all the people and to get of the ship/to flight deck)

I'v also recieved the transmission with psyco and the female doctor telling me they're comming to pick me up with a VTOL.

Where the hell is the way to the flight deck!?????

hmmm first of all Hi!

Sounds weird, can't understand how could you stuck there it seemed to me very easy to get back up, well maybe something went wrong and you got some sort of bug so try restarting the whole level it was easy anyways. If that doesn't work post maybe a ss, and i can try to replay the level and check it for ya!

O I forgot! : HI all! so i'm new to this very handy forum :P

So its really easy to get back up?

Were do you normaly get out on to the flight deck after the point i'm stuck?

I cant open any closed doors, so i have no idea where to go, to get at the BLIP on the radar.

There is one door smashed open, but i cannot get trough it because the opening isn't wide enough or something, bashin it with STRENGTH mode dousn't do anything to the door.

There's also a door that leads to a stairwell downstairs, but there's a metal box/closet in the door opening. That also doesn't move..

O btw: I'm from holland so my spelling won't be really good most of the time! sry!

Greetz!

Re:Crysis Single Player Help!!!

Posted by BVG - 2007/12/04 19:34

you have to wait, look at the floor some things are deploying when there done (can take al while) then the door opens or will open if you to the door agian (if i think its the section your in...)

had the same problem, just look with your binocular and then CLICK

Re:Crysis Single Player Help!!!

Okay, I'm on the flight deck, right in the middle of the green BLIB (replaying the level worked, although the thoor with the captain that dies didnt get open like it should, finaly it opened with a shotgun blast, the guy died, and the door that first didnt open wide enough just did this time)

But now i'm on the flight deck, i hear sounds of fighting, and im at the BLIB spot, but nothing happens...

weird..

there's no one at the flight deck, but the other ships are shooting in the air, but i don't see anything they shoot at..

Do i have to wait or something?

Or should the VTOL come to the Flight Deck imediatly when i get out on the flight and in the green BLIB?

There should be soldiers fighting aliens and alot of intense fighting, as when u reach the deck u will have an objective to repel incoming aliens, etc. I think u should reinstall or repair ur Crysis...

I solved the problem: restarting CRYISIS up did the trick!
Don't know how.. but now i'm up against the huge alien exosuit thing.
ITS BIIIIIG!

(My PC hasnt got really very high specs, so maybe thats part of the problem, and i'm using a ATI x1600 pro video card...)

Hahahah. yeah my graphics aint to great either...! ...sob..
Just destroyed the Alien ship an d suddenly fckng endtitle rols on my screen!
What an anti climax to end this game like that!
To short!
Well they say the game is split into 3 parts....
Hope the 2nd part is here soon!!!
